Professional Summary

Data Analyst fresher and B.E. Computer Science Engineering graduate with a CGPA of 8.2, skilled in SQL, Python, Excel, Power BI, DAX and Power Query. Experienced in developing interactive dashboards for sales, cybercrime and retail analytics. Strong understanding of data cleaning, KPI development, visualization and business-oriented data analysis. Seeking an entry-level Data Analyst role to apply analytical and technical skills to real-world business problems.

Education

Dhaanish Ahmed College of Engineering 2022 – 2026
Bachelor of Engineering – Computer Science and Engineering CGPA: 8.2 / 10

Experience

Next Gen Edutantr Pvt. Ltd. May 2026 – Aug 2026
Data Analytics Intern

- Performed data cleaning, analysis and visualization using SQL, Excel and Power BI.
- Developed interactive dashboards and KPI reports to generate actionable business insights.

Nexila Technology Sep 2025 – Oct 2025
Intern

- Gained practical exposure to Python, SQL, database concepts and application development.
- Applied problem-solving and analytical skills through practical technical tasks.

Data Analytics Projects

Sales Performance Dashboard – Power BI, DAX, Power Query *Power BI Project*

- Developed an interactive Sales Dashboard to analyze total sales, profit, quantity, category, sub-category and regional performance.
- Created KPI cards for Total Sales, Total Profit and Total Quantity with interactive Category and Region slicers.
- Built bar charts for Sales and Quantity by Sub-Category and donut charts for Profit by Category and Region.
- Used DAX measures and Power Query transformations to prepare data and generate business-focused insights.

Cybercrime Analysis Dashboard – Power BI, DAX, Power Query *Power BI Project*

- Built an interactive Cybercrime Dashboard to analyze cases, incidents, financial loss, severity and reporting status.
- Created KPI cards for Total Cases, Total Incidents, Total Loss, Average Severity and Reported Percentage.
- Analyzed cybercrime patterns by year, crime type, motive, state, platform and age group using interactive Power BI visualizations.
- Applied DAX and Power Query for data transformation, KPI calculations and dashboard development.

BlinkIT Grocery Sales Dashboard – Power BI, Excel *Power BI Project*

- Developed an interactive retail dashboard to analyze Total Sales, Average Sales, Average Rating and Number of Items.
- Analyzed sales performance by Outlet Type, Outlet Size, Outlet Location, Item Type and Fat Content.
- Created KPI cards, donut charts, bar charts, line/area charts and analytical tables to compare outlet and product performance.
- Used Power BI visualization and filtering techniques to convert grocery sales data into actionable business insights.

Technical Skills

Data Analytics: Data Cleaning, Data Analysis, KPI Analysis, Data Visualization, Business Insights, Exploratory Data Analysis
Business Intelligence: Power BI, DAX, Power Query, Dashboard Development, Data Modeling, Interactive Reports
Programming: Python, SQL
Python for Analytics: Pandas, NumPy, Matplotlib
Database: MySQL, Oracle SQL
Microsoft Excel: Data Cleaning, Pivot Tables, Charts, Lookup Functions, Basic Data Analysis
Tools: Git, GitHub, Power BI Desktop

Training & Certifications

- Data Analyst Training** – Python, SQL, Excel, Power BI and Data Visualization 2026
- Oracle SQL Training** 2024 – 2025
- Full Stack Development Workshop – N-Tech** March 2025

Additional Information

Languages: English, Tamil
Current Location: Bengaluru, Karnataka
Target Roles: Data Analyst, Junior Data Analyst, BI Analyst, Reporting Analyst, Business Analyst – Fresher
